### Profile

A hard working enthusiastic and committed individual with proven ability to work under pressure. Demonstrates maturity under pressure and a confident manner in tackling situations. Currently, looking for a pre-registration placement within a proactive organisation to further enhance skills.

### Education

**School of Pharmacy, University of London** 2002-2006

**Master of pharmacy**

**On course for a 2*ii* or a first**

- My master's degree project involved the solid phase synthesis of mixirins-cyclic lipopeptides with anti-tumour activity. Preliminary biological evaluation of these natural products demonstrated an ability to inhibit the proliferation of human HCT-116 colon tumour cells at low micro molar concentrations.

**Hackney Community College, London** 2000-2002

- **A level**

Maths (B), Chemistry (B), Biology (D)

- **AS level**

Physics (C)

**Swanlea School, Whitechapel, London** 1994-1999

- **GCSE's** – All passed including English, Maths and Science at grades between A-C.

### Pharmacy Experience

- **Florida Pharmacy**

July 2004

Voluntary work

I gained practical experience in a community pharmacy. I was able to work in the dispensary with the pharmacist assisting in all duties including patient interaction, in busy and pressurised situations.

### Work Experience

- **BORDERS, Books and Music**

Sept 2003 - present

I work as a cashier on Saturdays handling large amounts of cash. I also assist in book searches for Customers and directing Customers to relevant sections of the large store.

- **Apollo Home Entertainment**

July 2003 – present

Here I work on Sundays and occasionally on my own. My daily duties include opening and closing, cashing up and making sure that the store is in good condition for the remainder of the day. I also deal with all customer queries and recommend products to suit people's needs.

British Home Stores  
 HOBBS Ltd.  
 McDonalds,  
 Mina stores.

Oct - Dec 2001  
 Oct 2000 - June 2001  
 May - Oct 2000  
 Jan - Aug 1999

### Transferable Skills

- **Teamwork**

As well as working in a team at work, in university I have successfully completed many group projects. One of these projects was to write an essay on Non-Small cell lung cancer and its treatments. I compromised a team of four which was selected randomly. This experience has further improved my teamwork skills and made me aware that I can get along with a wide range of people.

- **Communication**

Working in a community pharmacy and retail, I have fostered communication skills to deliver customer needs. It has also taught me how to deal with people in busy environments by being calm and polite. In addition giving presentations has further enhanced these skills.

- **Analytical and problem solving**

Problem based learning workshops form a substantial part of my degree which have improved my analytical and problem solving skills. This has enabled me to concentrate on details allowing me to find solutions to specific problems much quicker.

- **Organisation**

Prioritising workloads and balancing between studies and two part time jobs has enabled me to achieve a fruitful outcome. This can be seen in my project which has shown good results.

### Hobbies

I play cricket for my university and have played volleyball and cricket for my college and school. I also enjoy reading books by authors such as Dan Brown, Lee Child and books by John Pilger. I also visit my local youth club on certain occasions and give advice to local youths on the importance of education. I would also like to travel in the future to countries such as Canada and China which will allow me to experience different cultures.
