*a bit thin.
what use can she do?
having a thin?*

22 November 2008

I would like to apply for the pre-reg placement 2009. I currently found your details on the Royal Pharmaceutical Society of Great Britain website. I enclose my CV for your consideration.

I am more interested in working in your pharmacy rather than in a big scale one, such as Boots, because I think you have a lot more to offer as far as knowledge and communication skills are concerned. What attracts me more is the actual contact with the patients and the friendly working environment.

I believe that the pre-reg training year is going to be beneficial to me because I will have the chance to improve my skills by working next to experienced pharmacists. I am trustworthy enough and have good communication skills in order to be a good pharmacist, however my problem solving ability needs to be improved.

Thank you for your time and consideration. I am available for interview any time, and look forward to taking the opportunity to talk with you further about my application.

Yours sincerely,

Experience:

Community pharmacy placements provided me with an excellent foundation in essential skills required to be a successful pharmacist. I experienced setting up dispensing prescriptions, monitored dosage systems in the form of preparing dose boxes for elderly patients in care and good customer skills.

My hospital pharmacy placement allowed me to experience patient counseling in use of medicines before discharge and problem solving in patients presenting more complex health care issues than normally seen in the community pharmacy. I also learned how to work in a pressurized environment.

Interests and Achievements:

- Health & Care: Obtained a resuscitation and basic life support certificate
- Sports: Swimming, tennis

- Travelling
- Literature reading
