Dear Pharmacy Manager:

I am very interested in obtaining a position as a pre-registration trainee for the year 2009-2010 with your pharmacy. Please find attached my Curriculum Vitae for your kind attention.

I am currently a final year MPharm student at the University of [REDACTED]. I am seeking the opportunity to become a pre-registration trainee in the UK as I believe this will enhance my academic knowledge and skills and provide me with further practical experience and endow me with the solid foundations to become a good pharmacist.

Placements in various pharmacies have provided me experience in dispensing, labelling, controlled drugs register, drug history and consultation.

I am a highly motivated and hard working individual; I work well in groups and under pressure. I do not under-estimate the requirement to work hard and can assure you that I am prepared for, and relish, the challenge.

Becoming a pharmacist will be the fulfilment of a life time dream of my own.

I hope that you will view my application favourably and give me the opportunity to present myself at an interview.

Sincerely,

[REDACTED]
